

I-15 MOBILITY ALLIANCE

TECHNOLOGY WORKSHOP

DECEMBER 7, 2022
9AM - 11AM (PST)
12PM-2PM (EST)

The purpose of this workshop is to address ways innovative technologies can be applied to improve mobility and safety on the I-15 corridor from California through Utah. This important multi-state event is part of the I-15 Mobility Alliance's 2022 Workshop Series, which brings together leading experts from agencies supporting improved mobility on this critical transcontinental corridor.

Speakers from the following organizations have been invited to join a panel discussion about technology grant programs from the US Department of Transportation and current state initiatives:

- US Department of Transportation
- Caltrans
- Utah Department of Transportation
- RTC of Southern Nevada's Freeway and Arterial System of Transportation (FAST) Center
- Nevada Department of Transportation

THE I-15 MOBILITY ALLIANCE IS JOINTLY LED BY CALTRANS, AND THE NEVADA, ARIZONA, AND UTAH DEPARTMENTS OF TRANSPORTATION
